GRAA has been an awesome source of ideas, suggestions and ways to improve my teaching, increase revenues on the range and really good best practices. The GRAA Boot Camp has been a great way to get PGA Professionals and range owners together to discuss ways to increase sales at facilities as well as challenges associated with golf. I look forward to the next opportunity to attend a GRAA Boot Camp.

While attending the GRAA Boot Camp, I heard from several presenters that spoke on areas within my specialty and not related to my interests. I learned more and have implemented new, out-of-the-box ideas from the speakers that I previously thought would not apply to me – I was wrong! In fact, one idea has generated over \$8,000 in new revenue for the course. Thanks for putting on the Boot Camp. I would highly recommend and would attend again.

After attending the recent GRAA Boot Camp, we have decided to dive head first into player development by reorganizing our driving range into a golf development center. We have built a short six-hole course on the range, along with a new grass only hitting area and a short game and wedge skill area. We have also built 17 new tees on the golf course to offer a short course loop or route in a Tee it Forward effort. The Boot Camp was our motivation, and we hope to be the first in our area to offer a golf development option with the foundation being the driving range!
